Hiring Manager
Jarvis Consulting Group

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the **Junior Data Engineer/Developer (Trainees)** position at **Jarvis Consulting Group**. As a Computer Engineering graduate with a specialization in AI and Data Science, I have been following Jarvis Consulting Group's work in data analytics with great interest.

My background combines strong technical skills in Python, SQL, and Power BI with hands-on experience automating data workflows and building predictive models. I believe my experience aligns well with your needs:

- Developed automated data collection pipelines using n8n, reducing manual reporting time by 60%.
- Created interactive Power BI dashboards for sales and inventory tracking.
- Built forecasting models with Python (pandas, scikit-learn) achieving 87% accuracy.

I am eager to bring my analytical mindset and technical proficiency to the Jarvis Consulting Group team. Thank you for considering my application. I look forward to the possibility of discussing how I can contribute to your data initiatives.

Sincerely,

Vrajesh Bhatt
