Hiring Manager
Thales Canada
[Company Address]

Dear Hiring Manager,

I am writing to express my interest in the **Data Analyst** position at **Thales Canada**, which I discovered via Brave Search. With my background in Computer Engineering and specialized training in AI/Data Science, I am confident in my ability to contribute to your team.

My experience aligns closely with your requirements:

- Developed automated data collection pipelines using n8n, reducing manual reporting by 60%.
- Created interactive Power BI dashboards for sales and inventory tracking used by management.
- Built forecasting models with Python (pandas, scikit-learn) achieving 87% accuracy.

At Moah Appliances, I developed automated data collection pipelines using n8n, reducing manual reporting time by 60%. I also created interactive Power BI dashboards used by management for sales and inventory decisions. My projects include an Airline Performance Analysis Dashboard and a Retail Sales Forecasting Model with 87% accuracy.

I am particularly excited about **Thales Canada**'s work in data analytics. My technical stack—Python, Power BI, RPA, and SQL—matches the skills you seek, and I am eager to apply my analytical mindset to solve real-world data challenges.

I have attached my resume and a tailored cover letter for your review. I welcome the opportunity to discuss how I can contribute to **Thales Canada** and look forward to hearing from you.

Sincerely,
Vrajesh Bhatt
